¹ “Network” refers to a specified group of physicians, hospitals, medical clinics and other health care providers that your plan may require you to use in order for you to get any coverage at all under the plan, or that the plan may encourage you to use because it may pay more of your bill if you use their network providers (i.e., go in-network) than if you don't (i.e., go out-of-network).

² “Deductible” means the amount you will have to pay for allowable covered expenses under a health plan during a specified time period (e.g., a calendar year) before the carrier will cover those expenses. The specific expenses that are subject to deductible may vary by policy. Expenses that are subject to deductible may be noted in boxes 8 through 31.

³ “Out-of-pocket maximum” means the maximum amount you will have to pay for allowable covered expenses under a health plan, which may or may not include the deductibles or copayments, depending on the contract for that plan. The specific deductibles or copayments included in the out-of-pocket maximum may vary by policy. Expenses that are applied toward the out-of-pocket maximum may be noted in boxes 8 through 31.

⁴ Routine medical office visits include physician, mid-level practitioner, and specialist visits.

⁵ Well baby care includes an in-hospital newborn pediatric visit and newborn hearing screening. The hospital copayment applies to mother if complication of pregnancy and well-baby together: there are not separate copayments.

⁶ Prescription drugs otherwise excluded are not covered, regardless of whether preferred generic, preferred brand name, or non-preferred.

⁷ “Emergency care” means services delivered by an emergency care facility which are necessary to screen and stabilize a covered person. The plan must cover this care if a prudent lay person having average knowledge of health services and medicine and acting reasonably would have believed that an emergency medical condition or life- or limb threatening emergency existed.

⁸ Non-emergency care delivered in an emergency room is covered only if the covered person receiving such care was referred to emergency room by his/her carrier or primary care physician. If emergency departments are used by the plan for non-emergency after-hours care, then urgent care copayments apply.

⁹ “Biologically based mental illnesses” means schizophrenia, schizoaffective disorder, bipolar affective disorder, major depressive disorder, specific obsessive-compulsive disorder, and panic disorder.

¹⁰ Waiver of pre-existing condition exclusions. State law requires carriers to waive some or all of the pre-existing condition exclusion period based on other coverage you recently may have had. Ask your carrier or plan sponsor (e.g., employer) for details.

¹¹ Grievances. Colorado law requires all plans to use consistent grievance procedures. Write the Colorado Division of Insurance for a copy of those procedures.

Cancer Screenings

At Anthem Blue Cross and Blue Shield and our subsidiary company, HMO Colorado, Inc., we believe cancer screenings provide important preventive care that supports our mission: to improve the health of the people we serve. We cover cancer screenings as described below.

Pap Tests

All plans except our BasicBlue PPO Plan provide coverage for an annual Pap test and the related office visit. The BasicBlue PPO Plan provides coverage for a Pap test and the related office visit once every three years. Payment for the Pap test is based on the plan's laboratory services provisions, and payment for the related office visit is based on the plan's preventive care provisions. With our BluePreferred for Individuals PPO Plan, laboratory services for a Pap test are limited to a maximum payment of \$75.00. With our Colorado HSA-Qualified Plans for Individuals, all services related to a Pap test are subject to the maximum benefit as described on the Health Plan Description Form. Under some plans pap tests received out of-network are not covered. Our BasicBlue PPO Plan does not provide coverage for Pap tests.

Mammogram Screenings

All plans except our HMO and PPO Basic Health and BluePreferred for Individual Plans provide mammogram screening coverage for women. For BluePreferred for Individuals the following frequency guidelines apply: For women between the ages of 35 years and 40 years, a single baseline screening mammogram is covered. For women between 40 years of age and less than 50 years of age, a screening mammogram is covered once every two years, or it is covered annually if the member's physician has determined that identified breast cancer risk factors are present. For women between the ages of 50 years and 65 years, a screening mammogram is covered annually. Payment for the mammogram screening benefit is based on the plan's provisions for X-ray services. Our HMO and PPO Basic Health Plans do not provide coverage for mammogram screenings.

Prostate Cancer Screenings

All plans except our HMO and PPO Basic Health Plans provide prostate cancer screening coverage for men. In all plans except our Tonik Plan the following frequency guidelines apply: For men between 40 years of age and less than 50 years of age, a prostate cancer screening is covered annually if the member's physician has determined that identified prostate cancer risk factors are present. For men 50 years of age and older, a prostate cancer screening is covered annually. Payment for the prostate cancer screening benefit is based on the plan's provisions for X-ray services. Our HMO and PPO Basic Health Plans do not provide coverage for prostate cancer screenings.

Colorectal Cancer Screenings

Several types of colorectal cancer screening methods exist. All plans except BluePreferred for Individual plans provide coverage for colorectal cancer screenings, such as colonoscopies, sigmoidoscopies and fecal occult blood tests. Depending on the type of colorectal cancer screening received, payment for the benefit is based on the plan's provisions for laboratory services, preventive care office visit services, or other medical or surgical services. Our plans do not provide coverage for preventive colorectal cancer screenings involving invasive surgical procedures and DNA analysis. Under most plans colorectal cancer screenings received out of-network are not covered.
